Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 14 October 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

1. All outstanding rejection except for those described below are overcome by applicants amendment filed 10/14/03.

Further, the restriction requirement as set forth in paragraphs 1-5 of the office action mailed 7/8/03 is rendered moot in view of the cancellation of claims 1-13 and 33-36.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 14-20 and 23-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Veeramasuneni et al. (U.S. 6,409,824).

The rejection is adequately set forth in paragraph 8 of the office action mailed 7/8/03 and is incorporated here by reference.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claim 32 is rejected under 35 U.S.C. 103(a) as being unpatentable over Veeramasuneni et al. (U.S. 6,409,824) in view of Hashimoto et al. (U.S. 4,174,230).

The rejection is adequately set forth in paragraph 11 of the office action mailed 7/8/03 and is incorporated here by reference.

Response to Arguments

6. Applicants arguments regarding WO 00/06518 have been considered but they are moot in view of the discontinuation of the use of this reference against the present claims.

7. Applicants' arguments filed 10/14/03 have been fully considered but, with the exception of arguments relating to WO 00/06518, they are not persuasive.

Specifically, applicants argue that while Veeramasuneni et al. disclose using polyphosphate and mixtures thereof, there is no disclosure or suggestion of the particular combination of 2 or more different types of phosphate materials as presently claimed.

However, it is noted that col.9, lines 58-60 of Veeramasuneni et al. explicitly disclose the use of sodium trimetaphosphate and ammonium polyphosphate. Thus, it is clear that Veeramasuneni et al. do disclose using two different types of phosphate as presently claimed. Further, col.18, line 66-col.19, line 2 of Veeramasuneni et al. discloses that a mixture of phosphate compounds can be used while col.9, lines 26-64 discloses that the phosphates include trimetaphosphate salts, sodium hexametaphosphate, and monobasic phosphate salts.

In light of the above, it is clear that Veeramasuneni et al. do disclose using at least two types of phosphate salts as presently claimed.

Allowable Subject Matter

8. Claims 21-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 21-22 would be allowable if rewritten in independent form as described above for the following reasons.

Veerasuneni et al. (U.S.6,409,824) disclose set gypsum-containing composition which is post-set treated with phosphate. While Veerasuneni et al. disclose the use of a polymer, the polymer is part of the gypsum-containing composition, i.e. pre-set composition, not part of the post-set treatment as required in the present claims. There is no disclosure or suggestion in Veerasuneni et al. of forming composition of inorganic phosphate salts and polymer which is then applied to the set gypsum-containing material as required in present claims 21-22.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Callie E. Shosho whose telephone number is 571-272-1123. The examiner can normally be reached on Monday-Friday (6:30-4:00) Alternate Fridays Off.
